

3mc Quality Assurance – Google Reviews

We regularly receive outstanding reviews on google and decided that maybe we should shout about it. In the last three months we have received an outstanding 5 stars, and overall our average is 4.9. This is because we like to go the extra mile and ensure the service we provide is what Brokers, who use us, want. Communication between us is key and the more we know about the customers circumstances the better we can source deals that meet their criteria. Whilst we won't give advice on our packaging side of the business, we will carry out the research needed on your behalf.

As a Broker you are required to meet the Consumer Duty requirements and by using a Packager, such as 3mc, you will be using a firm that sets a high expectation and standard of care when dealing with each case. This includes ensuring the products are fit for purpose, which meets the Consumer Duty **Product and Service Outcome**, and offers a fair value, which falls under the **Price and Value Outcome**. This then enables Brokers to evidence that they are recommending a product that meets the customers criteria and as a bonus we hope we give you more time to concentrate on what Brokers do best, and that is giving advice. We love supporting Brokers and being a part of the puzzle researching the market is what we do best.

Abdul Malique 5 reviews a month ago Overall, a wonderful company to deal with. I have found Louise very knowledgeable and polite person throughout all my dealings.	Simon Harrison 3 reviews 2 months ago Brian Spears-O'Neill did an exceptional job of assisting me with a complex remortgage case. His perseverance and guidance helped us get the deal over the line. Thanks Brian. Top job!
